

NANCY:

I would see Hal from time to time.

I'd tell your father I was getting my hair done or something.

He'd never notice if I had my hair done or not.

One time we had dinner.

Your father was off on a fishing trip.

And Ben was old enough to watch you by then,

So I put you both in front of the television set,

And then I just snuck out...like a teenager.

We drove a few hours away

And had dinner at a steak place in Philadelphia.

It was delicious.

One of those places where the butter is shaped like roses.

And then, after dinner, he asked me if I wanted to go on a drive.

We drove and drove.

And he parked down under a bridge,

By the banks of the Schuylkill.

And we just sat down, out there by the water.

Nobody was around—it was the middle of the night.

I had lost all track of time.

And then later that night...

He gave me the most incredible..

How do you say it...Head.

I had never felt anything like it in my entire life.

He told me— he loved my, you know...

He said, "I love your pussy."

Just like that.

And the truth is?

In my entire life with your father, he never said anything like that to me.

In our entire married life, he never once even mentioned my pussy.

And God knows, I praised his penis to the high heavens.

You have to hear this. I will be a whole person to you. I will.
